

# SERVICES TO PREPARE YOUR BUSINESS FOR EMERGENCIES

Our fully integrated brokerage, consulting, and property management team can ensure your business is prepared.

For clients that service emergencies, the client needs to have pre-negotiated locations ready for use.

For clients that service communities that are essential during an emergency, the client also needs to have strategies prepared to include pre-negotiated locations for use within 72 hours.

Clients need to have a broker and attorney help draft destruction or interruption of business clauses in lease in case disasters or hazardous situations occur that create the need to relocate immediately. Also, having a yearly update on available space in case of short-term need prior to hurricane season **IF** they are located in an active hurricane zone in Florida or SE US.

For commercial property management, a pre-checklist and post-checklist detailing procedures to prepare and react to an emergency. Having a property management company help with these items is **KEY** in maintaining operations and keeping employees safe.
